OCTOBER 2008

Wednesday, November 5, 2008

Central Jersey APICS presents

Berry Plastics Plant Tour

Originally established in 1967 as Imperial Plastics and located in Evansville, Indiana, Berry Plastics has grown into a leading manufacturer of injection-molded plastic packaging, including plastic containers, tubes, drink cups, bottles, closures, dispensing caps, industrial buckets, consumer products, prescription vials, overcaps, thermoformed products, flexible films, tapes and coatings. Berry now maintains over 75 plants world wide.

Look at the products around you and in your home. Chances are that Berry has produced the bottles or containers. From ice cream containers to cosmetic cases to industrial supplies, we do it all. Bring your colleagues and learn how over 40 years in business has transformed us into an industry leader.
