

Success Camp Workshop

Registration begins at 8:30am

9:00 AM til 4:00 PM on Thursday, March 4th

Presented By:

**Maryanne Ross and
Joni Holeman, CFPIM, CIRM, CSCP
of Seeds4Success, Inc.**

Hosted by Central Jersey APICS Chapter

Do you want to make 2010 your best year ever? Would you like to discover techniques used by the world's most successful individuals, "super achievers" in the world of business, competitive sports or industry? How would it feel to boost your productivity, increase your creativity, lead a more balanced life *and* teach others to do the same?

This action-oriented, fun-filled workshop reveals specific methods used by such value creators as Henry Ford, Thomas Edison and W. Clement Stone. We incorporate habits promoted by authors like Napoleon Hill, Jack Canfield, and Wayne Dyer. It's a day of serious inner work, but designed to leave you feeling energized, revitalized and ready to launch your own action plan for personal success!

These timeless best practices will work for anyone—from company president to currently unemployed. These strategies will show you how to change your thinking, take inspired action, and develop successful habits proven to work regardless of your circumstances!

You can achieve amazing results once you learn how to:

- *Change the outcome of any event by changing how you respond to it*
- *Clarify what you want and set goals that will energize your life*
- *Break through fear so that you can accomplish what you really want*
- *Reject negativity and persevere until you achieve your goals*
